Having been raised in these islands, I know the problems that plague our communities. Drug/alcohol abuse, crime, and a heavy tax burden are some of the many issues we face daily. Our community, Salt Lake/ Moanalua, is no different.

I would like to help restore our community to its former splendor, the days before our current ice epidemic, by running as the Republican candidate for the State House of Representatives District 31-Salt Lake/Moanalua. I believe my experience working in the travel industry and owning a business will serve me well as I seek public office.

I feel many of our communities needs are not being met, which is why I am choosing to partner with you as we embark together toward a common goal of making Salt Lake/ Moanalua a better, brighter, and safer place to live. I know my Christian values: A compassionate heart to serve; a strong work ethic; and the ability to be an attentive listener will make me an outstanding public servant. I look forward to speaking to you personally and hearing your ideas, and I hope to earn your support this fall.
